Worth doing, worth Dulux®

The Dulux® Envirosolutions® range of products provide responsible alternatives to traditional painting clean up methods.

Envirowash®

A revolutionary wash system providing businesses with a responsible mode of washing out paint tools. This water based paint waste management system converts water borne paint washings into clear treated water and solid waste.

Benefits

- ✓ Enables cleaning of painting tools and responsible treatment of wash water
- ✓ For use with water based paints and water based timber coatings

Brush Wash Solution

A convenient and fast way to clean and restore synthetic painting tools. It works on water based paints as well as most solvent based paints including enamels, varnishes, shellacs and single pack polyurethanes. A responsible alternative replacing the need to use flammable solvents like turpentine when cleaning brushes from most solvent based paints.

Benefits

- ✓ For synthetic brushes and synthetic roller covers
- ✓ Used to wash out water based and most solvent based coatings
- ✓ Non Flammable
